LeetCode: leetcode.com/u/parkavi-chinnasamy | HackerRank: hackerrank.com/profile/cparkavi97

CAREER OBJECTIVE

Third-year Computer Science undergraduate with a strong interest in Software Engineering, Artificial Intelligence, and Web Development. Building solid foundations in programming and problem-solving, with hands-on project experience and active competitive coding practice, aiming to contribute to real-world software development roles.

EDUCATION

Bannari Amman Institute of Technology *2024 – 2028*
Bachelor of Engineering – Computer Science and Engineering | CGPA: 8.27

PRG Velappa Naidu Matric Higher Secondary School, Palani
Higher Secondary (HSLC) — 95% | Graduated 2024
Secondary (SSLC) — 93% | Graduated 2022

TECHNICAL SKILLS

- Programming Languages: C, C++, Python, Java
- Web Technologies: HTML, CSS, JavaScript, React.js, Express.js, Node.js
- AI & Machine Learning: Generative AI, Gemini API, Machine Learning Fundamentals, AI Integration
- Database: MySQL, MongoDB, DBMS
- Core CS: Data Structures & Algorithms, Problem Solving, Operating Systems, Computer Networks
- Tools & Platforms: Oracle Cloud Infrastructure (OCI), Git, GitHub, VS Code, Postman

AREAS OF INTEREST

- Artificial Intelligence & Generative AI
- Machine Learning
- Full Stack Development
- Problem Solving & Competitive Programming

PROJECTS

BenefitBeacon — Civic Benefit Discovery Platform *HTML/CSS/JS, Python, Flask, MySQL*

- Developed a web-based platform enabling citizens to discover and access government welfare schemes based on individual eligibility, improving awareness and accessibility of public benefits.
- Designed an intuitive dashboard for personalized scheme recommendations, user profile management, and end-to-end application tracking.
- Built with a focus on usability and inclusivity, enabling users with limited digital literacy to easily identify and apply for relevant schemes.

LuminaLearn AI — AI-Powered Learning Platform *React.js, Node.js, Express.js, MongoDB, Gemini API*

- Built an AI-powered personalized learning platform with AI doubt clarification, adaptive recommendations, quizzes, rankings, certificates, and progress tracking.
- Integrated Gemini API for AI-based learning assistance and personalized guidance based on student performance.
- Developed secure JWT authentication and RESTful APIs using Node.js/Express.js with MongoDB for user, course, assessment, and progress management.

CERTIFICATIONS

- Programming in C — Infosys Springboard
- Introduction to Python — Infosys Springboard
- Oracle Cloud Infrastructure 2025 (OCI) Certification
- NPTEL Social Networks — Elite Certificate
